

Flat Mould Exterior Casing

5990

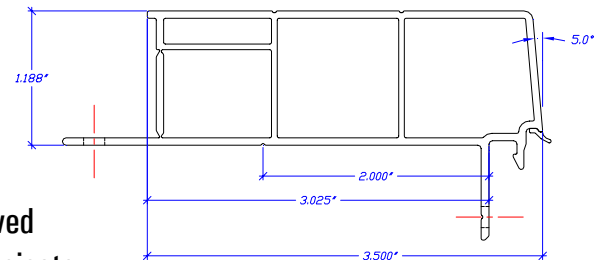

3 ½" exterior flat casing

with Optional break-away J Channel

A flat brickmold has been added to Coastal's wide range of accessories. It is designed to replicate the relaxed traditional feel of the old American architectural style. That flat 1" by 3" casing gives a linear exterior finish while keeping economical considerations in mind. Its installation creates a unique historic look to PVC windows.

Specifications

- 3 ½" surface wide (exceeds 3" from frame exterior, excluding windbreak)
- White coextrusion seal
- 5 degrees sloped sill for easy drainage
- V-groove lines on surface for style
- Bending at up to 24" radius
- ¾" integrated siding return with tear-out strip
- Double wall to increase rigidity once strip removed
- More economical brickmold for cost sensitive projects
- Possibility to trim at 2" wide guided by saw reference line
- Pre-drilled windbreak
